ABOUT THE PROJECT

Participa City allows to train adult learners in key „gate keeper“ positions to detect and actively avoid racism and discrimination of ethnic and cultural minorities and to develop good practices to build inclusive processes.

Preventing racism and discrimination of ethnic and cultural minorities are key elements in fostering participation in various aspects of life, including education, employment, and civic engagement. With this project we plan to train these key “gate keeping” persons to avoid unconscious discriminatory actions and make more conscious decisions.
